DRIVERS OF INTEREST

Greg Murphy

Ford Escort MK1

The four time Bathurst 1000 winner will team up with co-driver Jim Hewlett in a Historic Class car with the Stadium Motorsport Team. Having never competed in a gravel rally, Murphy will be relying on some good advice from the experienced team. "I don't know a lot (about rallying) so I don't have any preconceived ideas," said Murphy. "I need to work it out and try and learn as I go. I'm keen to get started and see what it's all about" "I've got no expectations other than to have some fun and enjoy myself. The only goal will be to get to the finish." His only previous experience on gravel was the 2004 Silverstone Race to The Sky held in the Cardrona Valley, Central Otago, where he raced a purpose built Holden Commodore Ute. "I loved every minute of it," commented Murphy. "It was an absolute thrill." (Photo Euan Cameron)

Matt Summerfield

Subaru Impreza WRX STi

Rangiora's best hope for 2015. Campaigning a new car this year and currently 3rd in the NZ Rally Championship, Matt is a real chance for the podium today.

Andrew Hawkeswood

Mazda 2

His new Mazda 2 is a part of the new breed of cars entering the NZRC. A 4WD turbo built on a spaceframe chassis - the car and driver have what it takes to win today.

Marcus van Klink

Mazda RX7

Klinky's Mazda RX7 is rallied just as it would have been by the Mazda factory in the mid 1980's. Rear Wheel Drive with lots of power and a wild man at the wheel.

Ben Hunt

Subaru STi

Ben Hunt came close to winning the NZRC last year in his first season in 4WD. Fast and reliable, Hunt placed second here last year and is a definite chance for a win today.

Graham Wilson

Toyota Starlet

You don't have to have a million dollar team to take part, or be a young bloke. Autosport Club president Graham Wilson has been Rallying nearly 40 years - a good bet to win the 1300 cc Class today.

Emma Gilmour

Suzuki Swift Maxi 1600

Currently the fastest lady in NZ Rallying, Emma is now in her 3rd season with her radical Suzuki Swift 4WD turbo. Like Hawkeswood's Mazda 2, this is a new generation car built just for Rallying.

Garry Cowan

Toyota Corolla AE 86

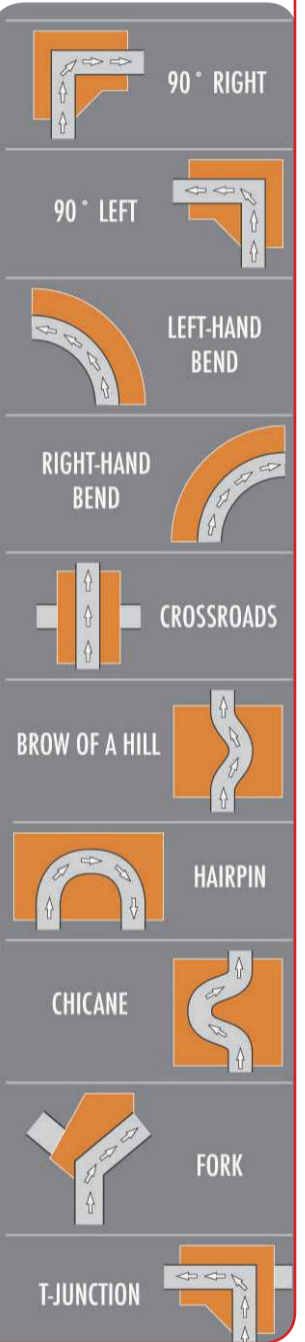

Built by Toyota NZ and rallied by Paul Adams in the mid 1980's. This car made Ross Meeking famous with some spectacular drives at Rally NZ. A true classic which Garry uses to full effect.

STAY SAFE

Rallying can be dangerous and spectators are advised that they watch at their own risk.

Study these diagrams. The orange areas indicate PROHIBITED AREAS where it could be dangerous to stand. Do not go there as this could cause delays or the cancellation of stages.

GET AMONGST THE RALLY ACTION!

The Lone Star Rally of Canterbury brings the Brian Green Property Group NZ Rally Championship - to Christchurch and North Canterbury. With backing from the Lone Star Café and Bar Group, including Joe's Garage, the rally promises top level action as New Zealand's best Rally Teams tackle the first two Ashely Forest stages in the dark on Saturday night, then back in the forest on Sunday.

The Rally starts at the Lone Star, Manchester Street on Saturday 30 May at 5.00pm. All cars will be on display at the Lone Star from 3.30pm, and you'll be able to meet the drivers during a poster signing session from 4.15pm. The first car leaves the Lone Star at 5.00pm. The Rally finishes at the Lone Star at 4.45pm on Sunday 31 May, providing another chance for you to get up close to the cars and drivers.

A further point of interest will be watching the cars being serviced in Rangiora in the Council Car Park behind the Fire Station and in the Library Car Park. Rally cars will come in for service there on Saturday night from 7.25pm and again on Sunday from 9.55am.

There will be over 50 teams taking on the challenge of the 2015 Lone Star Rally of Canterbury and you can be sure there will be action throughout the field. This spectator map will help you find the best place to watch the live action. It is 100% free of charge for you to get amongst the action at the 2015 Lone Star Rally of Canterbury.

DO...

- Always obey a marshall
- Stand in a naturally protected area
- Please leave your dog at home
- Understand that a car can crash in a very unpredictable way and place

DON'T...

- Assume that you can hear a car coming
- Stand on the outside of a corner
- Assume you can make a hasty escape from a car crashing - there's never time!
- Assume that rally cars will arrive at even intervals
